SWITCH
aai

Task Force "Evaluation"

SWITCH
The Swiss Education & Research Network

Expected Results

- Evaluation criteria catalog
- Evaluation report
  - Feasibility of an AAI
  - Recommended architecture

| Start	End
1 October 2002	20 December 2002

Input

- Preparatory study (www.switch.ch/aai)

Tasks

- Plan evaluation process
- Create evaluation criteria catalog
- Coordinate system evaluation with pilot projects
- Evaluate PAPI / Shibboleth
- Write evaluation report

Planning: Jul-Dec 2002 (1)

July 2002	Aug 2002	Sep 2002	Oct 2002	Nov 2002	Dec 2002

Project management

kick-off   PAS   Demo   Info

proj. planning	project management / controlling

strategy / marketing

LOI

legal consulting

Design

evaluation criteria

policies: details	preliminary interface design
attributes: detail spec.	preliminary system design

evaluation / architecture selection

Pilot

pilot planning	basic AAI environment for pilot projects

pilot projects of participating organizations
(Shibb & PAPI)

Evaluation based on preliminary pilot results

The evaluation of the following criteria have to be based on preliminary results from the pilot projects:

Functional requirements
- **Provides basic AAI functionality as defined in AAI Report**

Technical requirements
- **Interoperability between AAI core and related Systems**
- **Usability**
- **Privacy**
- **Interoperability with common OS, network hardware, firewalls, …**
- **Security**
- **Scalability**
- **Performance**

Organizational requirements
- **Complexity. Can it be operated across organizations?**
- **Autonomy of participating organizations respected?**
- **Software available and documented?**
