OLAT - Online Learning And Training

AAI Info-Day 7. December 2004

Florian Gnägi, Mike Stock

Multimedia & E-Learning Services, University of Zurich

Agenda

- AAI implementation in OLAT
 - Goals
 - Workflow and Implementation
 - Major Issues
- OLAT Live Demo
 - AAI login
 - User mapping
 - Course preconditions
- Questions and Answers

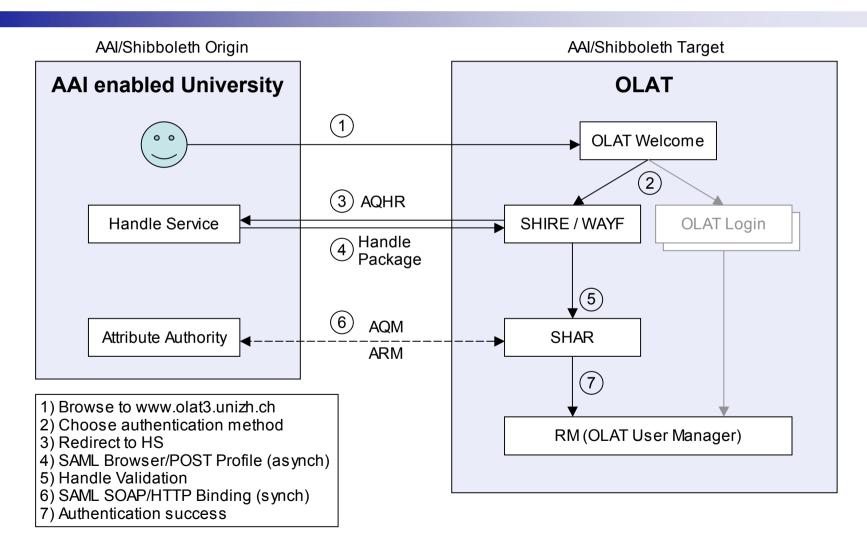

Goals

- Seamless integration of AAI/Shibboleth into OLAT from a user's point of view
- Co-existence of AAI/Shibboleth with alternative authentication mechanisms
- Minimal setup requirements for administrators
 - No additional software needed
 - Configuration of AAI/Shibboleth within OLAT

Workflow

Implementation

- Implementation of SHIRE, WAYF and SHAR in OLAT (Java/Tomcat)
- Based on freely available OpenSAML
- WAYF based on Shibboleth Origin Reference Implementation
- SHIRE/SHAR implementation based on OpenSAML code reviews and Shibboleth Architecture DRAFT v05

Features

- Configuration within olat_config.xml
- WAYF includes sites.xml watchdog
- Handle validation according to Shibboleth Architecture DRAFT
 - I.e. Issuer, Issue Instant, Recipient, Signature,
 Subject IP and optional Client Cert validation (outside standard's scope)
- Attribute translation and propagation within OLAT
- OLAT user profile mapping
- Generic Shibboleth implementation

Major Issues (1/2)

- Missing AAI attributes
 - Students registering in a minor field of study
 ⇒ grant access through OLAT groups
 - Assistants and professors⇒ Uni ZH specific solution
 - − Missing registration number (Matrikelnummer)⇒ Uni ZH specific solution
- No logout defined by Shibboleth standard
 - Users working at same computer may take over accounts by accident

Major Issues (2/2)

- User acceptance
 - AAI certificates not signed by known root CA
 - User is unfamiliar with AAI and its concept of redirecting to Home Site for authentication
- Browser issues
 - Session lost after redirects with Netscape 7.0
- OpenSAML library patches needed
 - Send SAMLRequests' IssueInstant w/o millis
 - Allow custom Trust Manager in SOAPBinding

Live Demo
