Test of the VM Images

Boot VM image and test network connectivity
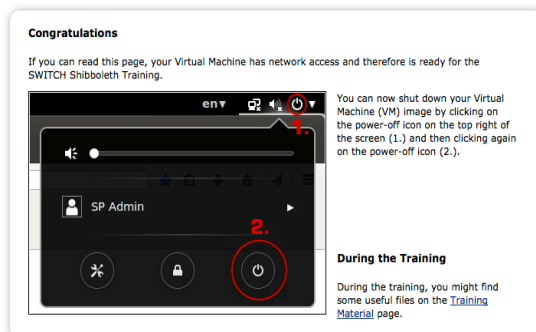

SWITCH

SWITCHaai Team
aai@switch.ch

Boot up the image

1. Open "SWITCH-Shibboleth-Training.vbox" in Virtual Box

2. Start the virtual machine (VM)

3. After login, Firefox will open automatically.
   Ensure that it displays this page:

If you don't see this message, contact an assistant.

Training VM Test

- Test that you still have network connectivity:
  E.g. by accessing http://wiki.shibboleth.net in Firefox
  on Training VM

- Ensure that the time is in sync:
  In Terminal run: `$ date`

- Synchronize time if needed (especially when VMWare is used):
  In Terminal run: `$ sudo ntpdate 0.ch.pool.ntp.org`
